EDUCATION

BCA (Bachelor of Computer Applications)

Salem Sowdeswari College
(2017 - 2019)

DEEE (Diploma in Electrical and Electronics Engineering)

Kottai Mariyamman Polytechnic College, Salem
(2015 - 2017)

SKILLS

Programming & Web:

- C#, WPF, XAML
- HTML, CSS, JavaScript
- SQL
- Bootstrap

Cloud & DevOps:

- AWS Cloud Computing
- Linux
- Terraform
- Docker
- GitHub

CERTIFICATES

Amazon Web Services (AWS)

AWS Certified Cloud Practitioner (2025-2028)

- Strong understanding of AWS Cloud concepts, core services, security, pricing, and support.
- Hands-on knowledge of EC2, S3, RDS, IAM, Lambda, CloudFront, and VPC.
- Familiar with shared responsibility model, billing, and cost optimization.

AWS re/Start Graduate (2025)

Completed AWS re/Start program with practical exposure to cloud fundamentals, Linux, networking, security, and employability skills.

AREA OF INTEREST

- Cloud Computing
- Network Security
- Cloud Security
- Software Development

KAMALESH MN

PROFILE

Software Developer with hands-on experience in C#, WPF, and desktop application development. AWS Certified Cloud Practitioner with foundational knowledge in cloud architecture, security, and scalable application deployment. Passionate about building secure, cloud-ready software solutions aligned with modern development practices.

EXPERIENCE

KLEIDSYS TECHNOLOGIES OCTOBER 2022 - FEBRUARY 2025

Software Developer

Geometric

- Worked on three projects focused on geometric algorithms and computational geometry.
- Developed feature-rich desktop applications using C# and WPF, with XAML for responsive, modern UIs.
- Designed custom controls, templates, and styles to enhance application usability and branding.
- Collaborated with cross-functional teams to deliver accessible, localized, and user-friendly solutions.
- Hands-on experience in C# WPF, specializing in canvas-based geometric operations, including polygon manipulation, transformations, and drag-drop.
- Graphics & Geometry Processing: Expertise in handling custom shape rendering, zooming, scaling, and positioning algorithms on WPF canvas.
- Developed and maintained authentication and role-based access control using secure login systems.
- Implemented error handling, debugging techniques, and performance optimizations to ensure a smooth user experience.

PROJECTS

Web Server Deployment using EC2

- Launched EC2 instances and hosted web apps using Apache/Nginx; configured security groups and monitored performance.

Serverless File Processing (Lambda + S3)

- Built event-driven system using AWS Lambda and S3; automated file processing with secure IAM roles.

Monitoring & Alerting (CloudWatch + SNS)

- Monitored resources with CloudWatch; set alarms and SNS notifications for proactive issue handling

Backup & Disaster Recovery

- Automated backups using Lambda and S3; implemented recovery strategies for data durability.
